

# LED JOBSITE LIGHT

## Beacon360 Blaze

### Features

- Reduce installation points at a ratio of 25:1 compared to stringlights.
- Easily relocate or interchange with other LED Jobsite lights throughout the site as the project progresses.
- Quickly transition onto a tripod or floor stand.
- Variety of mounting options.
- Weatherproof (IP65) & durable construction built to withstand harsh environments.
- Dimmable to half-power.
- Theft resistant.

### Applications

- All-purpose jobsite area light
- Replace stringlights (250 ft worth!)
- Replaces 400W metal-halide
- Portable task lighting

### Recommended guidelines to meet OSHA standards

- Installation height: 8-15 feet
- Spacing: 50 feet
- 2,500 ft<sup>2</sup> light coverage

### Specifications

Part Number	LE360LED-25P25C
Description	Beacon360 Blaze
Lumens	14,300 @100% / 7,150 @ 50%
Watts	100 Watts
Modular Daisy-Chain	<ul style="list-style-type: none"><li>• 50' 14/3 SJTW</li><li>• Molded 5-15P plug &amp; 5-15C triple-tap connector.</li><li>• Detachable from light head with Quick-Connect.</li></ul>
Quick-Connect	Watertight 3-pin locking connector
Light Temperature	4,500K
Amp Draw (@120V)	0.83A
Voltage	90-277V
Linkage Rating (15A/120V)	14 units
Weight (light head)	4.5 lbs
LED Life Expectancy	50,000 hours
Construction	Cast aluminum housing with polycarbonate lens.
Approvals	cETLus
Weatherproof Rating	IP65 Wet location rated
Mounting options	Eyebolt (included), 4-8' Tripod (-TR) Floorstand (-FS), Magnet (-MAG) Clamp (-CLAMP)
Warranty	3-year no hassle warranty
